

### HOW TO:

1. After you've coloured in your pup, cut out each piece.
2. Get any coloured piece of a4 paper and starting from the short side fold 2cm rectangles back and forth like you're making a fan.
3. Now that you have your accordian belly, cut the accordian to the size of the dog belly.
4. Stick each side of the dog to each end of the long accordian.
5. Fold the ear along the line and glue the smaller section to the area where you want your flappy ear!
